## Visa requirements for US, Canada, Australia, Europe

Upon arrival in Zimbabwe, you must present an invitation letter (sent to you before your arrival), your passport, and sufficient funds to cover your visa. The recommended visa type is a 30-day Business Visa, indicated by the stamp “BV30D” in your passport. Ensure the stamp does not read ‘HV’, as this may indicate an erroneous holiday visa, and you should request a correction from immigration.

If you intend to return to Zimbabwe within your travel itinerary, like booking a Chobe Day Trip to Botswana, we highly advise acquiring either a Double Entry visa or the KAZA visa at the Port of Entry.

Possessing a visa in advance significantly minimizes the clearance time at Immigration ports. Additionally, for guests with pre-purchased visas, it is recommended to carry a hard copy of their visa approval during immigration procedures to facilitate a quicker process.

Visa payments are accepted in cash by the immigration officer processing your visa. Current visa prices for Zimbabwe are as follows:

### American

US\$30 Single Entry  
US\$45 Double Entry

### Canadian

US\$75 Single Entry  
Not available

### British and Irish

US\$55 Single Entry  
US\$70 Double Entry

### EU Countries

US\$30 Single Entry  
US\$45 Double Entry

### Australian/New Zealand

US\$30 Single Entry  
US\$45 Double Entry

Note that Double Entry visas are not issued for Canadian passport

holders, so purchase an additional single-entry visa if planning excursions to Zambia or Botswana.

For extended stays exceeding four weeks, apply for a Temporary Employment Permit (TEP) before your visa expires, with a cost of US\$500. Our staff will assist you in the application process. To apply for a TEP, prepare the following documents:

- 6 passport-sized photographs (35mm x 45mm)
- 3 copies of your passport
- 3 copies of your resume/CV
- 3 copies of your qualification certificates
- 3 copies of your police background check

Additional required paperwork will be provided. Present these documents, along with an application letter, to immigration.

For the TEP application, you’ll need to pay an additional US\$70–US\$100 for a consultation and chest X-ray at a local clinic.

This is necessary for Tuberculosis screening, and a team member will accompany you. If you prefer having the X-ray done in your home country, bring the results, ensuring they are clear for Tuberculosis screening. The on-site team will provide support throughout the paperwork and procedures.
